### Improving quality of life

Thank you for purchasing the screenFloww®. You have now acquired a device that has been designed to make you feel better when using your computer, laptop, tablet and TV. The screenFloww® works like a transformer and converts electromagnetic radiation into natural, body own frequencies (the Floww® Field).

Experts confirm that the patented Floww Health Technology supports the preservation of peace and vitality in the human body. Thanks to the Floww® Field users often experience an increased vitality as soon as they start to use a Floww®-product. Would you like to measure the effect of Floww on yourself? Sign up with research institute Soffos at [www.soffos.eu](http://www.soffos.eu) (see further on).

During the production and packaging of Floww® products, environment- and human friendly materials are used where possible.

### Range of the screenFloww®

The screenFloww® creates a Floww® Field around the computer, laptop, tablet and TV.

### Instructions for use of the screenFloww®

- Place the screenFloww® as close to the screen as possible, within a maximum distance of 10 cm.
- Place the screenFloww® on top of, in front of, or behind the screen.
- The screenFloww® is suitable for all computer screens, tablets or televisions.
- Never use more than one screenFloww® alongside each other; they could disrupt each other's effectiveness.

#### Disclaimer

Floww®-products are not medicines. If you have physical complaints it is always advisable to contact your doctor. Floww®-products should only be used as indicated in the information material supplied by Floww® International. Because the long-term effects of wireless technology are unknown, Floww® International recommends you to reduce exposure where possible out of precaution. In addition, we refer to our general terms and conditions. These can be downloaded from our website, [www.floww.com](http://www.floww.com).

### RADIATION & CHILDREN

#### Experts

Experts assume that children are especially vulnerable to the potentially harmful effects of mobile and wireless networks on their health. Wireless technology has been introduced without clear knowledge of the long-term effects. Therefore, measures are being taken internationally.

#### Council of Europe

The Council of Europe adopted a resolution in 2011 which, among other things, recommends wireless internet and mobile phones to be banned from schools out of precaution. Floww organizes lectures in schools on children, young people and radiation. Are you interested in a lecture at your child's school? Then please contact Floww International: [info@floww.com](mailto:info@floww.com)
